1. Recruitment

One Call 24 ensures that all relevant information is obtained from the client in order for the most suitable candidate to be identified and placed into the job role. It is also key that the candidate applying for a vacant post is fully aware of the requirements they need to meet, as well as what they can expect from the agency and client.

One Call 24 will therefore ensure that the following information is accessible on all job adverts:

- Agency name, logo and location
- Job title including Band (where applicable)
- Description which easily explains the vacant job post
- Pay expected– PAYE/LTD
- Location of job role, including full address and ward details
- Person Specifications, including (but not limited too); Training; Skills; Expertise, Qualifications and other personal qualities
- Other job specific requirements
- How to apply
- When to apply (i.e. closing dates etc)

One Call 24 will make sure that all job adverts posted will follow current legislation and guidance, therefore not breaking any sex, race, disability, and religious beliefs or sexual orientation discrimination laws.

One Call 24 uses various methods in order to attract the most suitable candidates for vacant job roles, including the use of:

- One Call 24 Website
- Various online job boards and the internet
- newspapers or magazines
- Referrals and business contacts

In all cases, advertising information will be clear, concise and accurate – thus managing the candidate's expectations.

OneCall24 candidates are recruited in many different ways but they must have a minimum of twelve month's UK work experience in their relevant field (either trained or non-trained) before they can be recruited.

Once a new candidate is appropriately screened on the phone/via email they are sent/download an application pack containing our application form and list of documents required for a face-to-face interview.

Once an interview has taken place and all documents outlined in the following policy are collected a new starter's file should be sent to compliance team for checking. Any files that do not meet the compliance criteria will be rejected.

2. Registration Process

OneCall24's approach to the recruitment of temporary staff is to provide only the best and most suitable workers to their clients. This is done via a robust recruitment and vetting process which ensures that 'customers' will receive; careful; fully trained, fully referenced, skilled and fully qualified workers, that meet the requirements set by the authority.

OneCall24 aims to follow the below objectives:

- To recruit and retain skilled people to enable the authority to achieve and maintain its aims and values.
- To ensure effective, consistent and fair practice by the provision of clear guidelines.
- To ensure there is equality of opportunity for all candidates and temporary workers and to ensure there is no less favourable treatment for any party.

The above guarantee starts as soon as initial contact is made by/with the temporary worker and throughout the whole recruitment, registration and placement process.

OneCall24 ensures that only suitable candidates are successful in both the pre-screen and follow up registration process. Initially, if a candidate is successful at the *pre-screen stage*, they will be invited to attend a face to face interview with their recruitment consultant and also, OneCall24's clinician. All members of staff involved in the interview process are suitably trained, experienced and competent personnel. This alone ensures that the candidate is asked the necessary and relevant questions in line with their job aspects and aspirations, but also, with suitably trained staff completing the face to face interviews; this allows them to further verify such criteria as: the candidate's identity; level of understanding of the English language (both written and oral); Expertise; Skills and competency.

When a candidate is invited to the face to face interview, they are sent the registration pack via email, but also a list of documentation that they will need to bring with them. This includes (but not limited too):

- 2 x Recent Clear Photograph of the worker
- Proof of Identity
- Proof of Eligibility
- Proof of Professional Registration
- Proof of Professional Qualification(s)
- Full Employment History
- Referee details from their 2 most recent employers
- Training Certificates
- IELTS
- DBS
- Overseas Police Check
- Blood and Immunisation Report
- Professional Indemnity Insurance Documentation
- Mandatory Training

Face to face interviews are conducted by a more senior person to the candidate, with relevant checks carried on the interviewer to confirm their suitability. A detailed interview form is completed, with verification of the face to face interview evidence via information present on the document, including:

- Location of interview
- date of interview
- name and signature of the interviewer

- name and signature of the interview
- PIN
- Evidence of interview questions asked and answers provided by interviewee.

All workers will have their written and oral English understanding graded, as well a medical mathematics understanding. A scoring system has been implemented based on their written and verbal fluency where the worker is rated by the interviewer, recorded and kept in the worker file.

All items provided by the candidate must be original items, otherwise – they will not be accepted by OneCall24. A fully completed application form will also be required before the registration process can be completed. A detailed and thorough application form is used by OneCall24 which requires the candidate(s) to provide the following information:

- Full name(s)
- DOB
- Address
- Contact number
- National Insurance Number
- Next of Kin details (full name, relationship, contact number, address)
- Education and Qualifications
- Employment History
- Referee details and reference consent
- Training details
- Professional details
- Driving licence held? Endorsements?
- Insurance details
- Preferences regarding work
- Immunisation/Health information
- Rehabilitation of Offenders Act
- Asylum and Immigration Act
- Professional Registration details (PIN)

File will then be moved to the compliance team once above been adhered too.

3. **Verification of Qualifications**

As part of the registration process and prior to the deployment of the temporary worker into the authority, OneCall24 will ensure that all relevant professional qualifications have been sufficiently verified.

The worker will be expected to detail on the agency Application Form the professional qualifications obtained. Evidence will then be sort from the temporary worker in the form of the Professional Qualification Certificate. The original item must be provided by the temporary worker, with OneCall24 further verifying this by signing and dating the copies taken of the original certificates as 'Original Seen'. This will include: the wording 'original seen'; date for which the original item was seen and scanned and legible signature of the person who saw the original item. The verified copies of the qualification certificates will be retained in the worker's file.

Should any professional qualification certificate be presented in another language other than English, OneCall24 will ensure that the certificate(s) are translated into the English language by suitable and professional company. Evidence of the original qualification certificate and the translation will be verified as original seen and retained in the worker's file.

Where a different name or names are present on the supplied professional qualification certificate that do not match those supplied on ID and Right to Work documents, OneCall24 will look to establish a genuine link between the names to further confirm that the certificate(s) provided by the worker is genuinely theirs. Sufficient proof of name change will be sort in the form of either: marriage certificate; divorce certificate; change of name deed poll or any other legal document which can sufficiently prove a change in the worker's name. Proof of name change documents must be original seen, with verified copies retained in the worker's file.

OneCall24 will cross check all professional qualifications supplied next to the details presented within the application form and any other vetting correspondence.

Where any concerns arise over the professional qualification certificates supplied, OneCall24 will contact the educational body to further confirm that the information supplied is true and correct.

4. Verification of Registration with Professional and Regulatory Bodies

As part of the recruitment and ongoing compliance process, agency workers are required to provide proof of current and ongoing valid membership with their professional body.

During the registration process, applicants are asked to confirm whether they are, or have been under investigation by their professional body. If the answer, full details will be obtained at this time. At point of recruitment, agency workers will be required to supply their original Certificate or a Statement of Entry. Only Original documentation will be accepted. These items will be scanned by OneCall24, signed and dated as original seen and retained within the worker's file. OneCall24 will ensure that any information presented is cross referenced against other documentation supplied as part of the recruitment in orders to identify any potential discrepancies. Where these are highlighted, they will be raised with the candidate and the appropriate action taken. Where necessary, evidence of annual correspondence from the professional body will be obtained by OneCall24 and retained in the worker's file.

As well as the original documentation supplied by the agency worker, OneCall24 will also conduct a PIN check on the information supplied in order to further verify as to whether the worked has current/valid membership. Checks will be carried out at point of registration; immediately prior to any assignment start date (24/48 hours) and every 4 weeks thereafter on workers in long term assignments. Evidence of all checks will be retained in the agency workers file.

Where information is returned on a web check – OneCall24 will ensure that full information is obtained from the agency worker prior to deployment, with the necessary steps taken in line with the restrictions which may be in place on a worker's PIN. OneCall24 will refer any concerns (where necessary) to the professional body to seek further advice and clarification before placing the candidate into any assignment.

During the initial recruitment, candidates will be notified of their obligation to update OneCall24 with any changes of the status of the professional registration. They will agree to these terms by signing the agency worker handbook.

5. References:

One Call 24 will ensure that all workers offered to and placed within the authority are stringently vetted. This will include receipt of confirmation of the worker's previous employment history. At all times, OneCall24 will comply with latest NHS Employment Check Standards (see www.nhsemployers.org/your-workforce/recruit/employment-checks/nhs-employment-check-standards/employment-history-and-reference-checks).

As part of the registration process, One Call 24 will require workers to provide referee details. As per the NHS standards, at recruitment: references which covers at least three (3) years of previous employment and history from two separate employers (where possible) will be obtained, one of which should be from the Candidate's current or most recent employment or Assignment (of two (2) weeks or more) or Engagement, as appropriate. Unless otherwise agreed to the contrary in writing with the client, where a Candidate has been with one employer for five years or more, then one reference may be sufficient.

Each worker will be required to supply full referee details, including (but not limited too): Full referee name; referee job title; referee band; address details; contact number; acceptable email address and dates of employment in mm/yyyy format. One Call 24 will also ensure that the worker provides consent for the referees to be contacted for a reference. Without this consent, the referee(s) cannot be contacted and will mean that the worker cannot progress further within the registration process.

References will be requested using the standard reference template at point of registration. Only written references will be accepted, which must be fully complete and be received with acceptable verification.

Acceptable verification will be sought in the following forms:

- Business/company email address
- Company Stamp and signed by the referee
- Compliment slip, signed and dated by the referee
- Business Card
- Fax Header

To speed up the process, One Call 24 may contact the referee via telephone, and go through the reference form with them, completing all fields as discussed with the referee. One Call 24 will then forward the completed reference form to the referee for them to respond with acceptable verification, confirming that the information presented is true/correct.

References must contain the following criteria:

- Be updated annually from the date of recruitment and from the two (2) most recent employment / Assignments held
- Contain details of the work undertaken during those engagements
- Be obtained from the Supervising Consultant (ideally a permanent staff member) In the case of either Consultants or Associate Specialists; references must be obtained from the Clinical Director or Head of Department at the most recent substantive or long-term placement of four weeks or more in duration. In the case of recently graduated Drs, the Clinical Dean is the most suitable person to be contacted for a reference
- Be relevant to the type of work either previously carried out or to be carried out by the potential Agency worker
- Comment on the work undertaken by the potential Agency worker and experience, integrity, professional competence, personal qualities and track record during the period of employment

If a reference is returned without sufficient verification, the referee will be chased to provide the required information as detailed above.

If a reference is returned incomplete, the referee will once again be contacted in order for the reference to be completed in full.

If an unsatisfactory reference is provided, or inconsistencies are identified (i.e. dates of employment), One Call 24 will contact the referee via telephone to discuss the concerns highlighted. Once discussed, further clarification will be sought. Alternatively, One Call 24 will look to obtain further employment references from the workers previous work history.

Should it be determined that the worker is unsuitable to be placed by One Call 24 due to unsatisfactory references, the worker will be notified that they have failed the registration process.

References that are addressed 'To Whom it May Concern' are not automatically accepted. If the reference has been received as a response to a reference request made directly by One Call 24 (and evidence of this held on file), then the reference can be used as part of the workers registration with One Call 24. However, if the reference has not been supplied to One Call 24 based on a reference request or is not addressed to One Call 24, further clarification will be sought from the referee that the information provided is true and correct. Evidence of this verification will be obtained in written format, meeting the verification standards as detailed above.

As part of the ongoing quality assurance programme offered by One Call 24, references will be updated on an annual basis. Annual references will be expected to meet the same criteria as detailed above and at all times in line with the Framework standards and NHS Guidance.

In respect to employment history, a fully completed, legibly signed and dated Application form will be obtained, which will detail the candidate's employment history. Past this, a CV will be obtained which will details the Candidate's full previous employment history and training, with no unexplained gaps. The Candidate's previous employment history/CV must be updated by the Candidate on at least an annual basis from the date of recruitment. Evidence will be held within the candidate's file at all times.

Information supplied on references will be cross referenced against the worker's CV/Employment History. Where any discrepancies are highlighted, these are raised with both the worker and the referee to establish what information supplied is indeed correct. The necessary amendments will be made, with a fully auditable trail available.

One Call 24 will ensure at all times that references obtained are done so in compliance with the Equality Act 2010 (not requesting any information in relation to the Candidate's absence or sickness record).

6. Overseas Police Check

Where a worker has entered the UK or become resident in the previous 6 months prior to their registration, OneCall24 will ensure that an Overseas Police Check is supplied by the worker and retained on file.

OneCall24 will obtain only original documentation relating to the worker's Overseas Police Check, signing and dating the item to that effect and retaining it in the worker's file.

Where the Overseas Police Check is not supplied within the English language, OneCall24 will ensure the document is sufficiently translated by a professional translation company.

OneCall24 will allow candidates to submit an application, before providing them with an Overseas Police Check (where applicable). This will enable OneCall24 to begin processing the application sooner; however, no decision will be made on the worker's application until a satisfactory Overseas Police Check has been received from the worker.

OneCall24 will ensure that all Overseas Police Checks are:

- Less than 3 months old at the point of recruitment
- Verified with originator
- Obtained in conjunction with an Enhanced DBS.

Regardless of the work history presented to OneCall24, or the information supplied on the agency worker's application form, OneCall24 will ensure that an Enhanced DBS check is obtained for each worker prior to their deployment within the provision of the services.

If an unsatisfactory response is received for the Overseas Police Check, OneCall24 will refer to their 'traffic light' system to confirm whether the information supplied needs to be notified to the authority. (Please refer to traffic light system for further clarification on this).

If information is present on an Overseas Police Check, OneCall24 will ensure that the worker has correctly completed the registration form, and furthermore – supplied a full statement detailing the circumstances leading up to the information provided on the Overseas Police Check.

7. Identity

Needing to establish a worker's identity is a critical part of the recruitment process at One Call 24. Identity must be established prior to the worker being deployed in the provision of the services.

In line with current (2015) NHS standards, One Call 24 will look to establish a worker's identity using the following combination of documentation:

- Two forms of photographic personal identification and one document confirming their address; or,
- One form of photographic personal identification and two documents confirming their address.

Below is a list of acceptable photographic ID documents:

- UK (Channel Islands, Isle of Man or Irish) passport or EU/other nationalities passport / passports of non-EU nationals and other valid evidence relating to their immigration status and permission to work
- UK full or provisional photo-card driving licence

- Biometric Residence Permit (formerly known as identity cards for foreign nationals)
- (UK) HM Armed Forces Identity card
- ID cards carrying the PASS accreditation logo (UK and Channel Islands), for example a UK Citizen ID card. This card can be applied for by residents of the UK and is verifiable with similar security marks to UK passports and driving licences. (The Proof of Age Standards Scheme (PASS)).

- Mortgage statement from a recognized lender** (UK and EEA – non EEA statements must not be accepted)

- Local authority tax statement – for example, a council tax statement (UK and Channel Islands)**
- UK full or provisional driving license – if not already presented as a personal photographic identity (An online check can be completed with the DVLA by the agency with the worker's permission)
- UK full driving license (old-style paper version), old-style provisional driving licences are not acceptable
- Most recent HM Revenue & Customs tax notification (i.e. tax assessment, statement of account, notice of coding but not a P45 or P60)**

**All documents must be dated within the last six months, unless there is good reason for it not to be, for example where there is clear evidence that the individual was not living in the UK for three months or more. These documents must contain the name and address of the applicant.*

*** All documents must be dated within the last 12 months.*

Not denoted means that the document can be more than 12 months old.

Items such as a Full UK Birth Certificate and proof of National Insurance do not provide sufficient evidence of identity. Therefore, this will not be requested to establish identity by One Call 24.

Where a candidate is genuinely unable to provide suitable photographic ID, OneCall24 will ensure that a separate combination of documents is obtained. This will be:

- ✓ 2 x Acceptable proof of address and 2 x Acceptable Non-Photographic Identity and a Passport Sized Photo (including endorsement and statement from a person of standing).

In line with the NHS Employment Checks Standards, OneCall24 ensure that only the following Non-Photographic Identity is accepted:

- ✓ most recent tax notification from HM Revenue and Customs (i.e. tax assessment, statement of account, notice of coding, P45 or P60 (UK and Channel Islands)).**

Where the worker provides documentation which shows different names, One Call 24 will look to obtain sufficient proof of name change, in the form of either: marriage certificate; divorce certificate; change of name deed poll or any other legal document which can sufficiently prove a change in the worker's name. Proof of name change documents must be original seen, with verified copies retained in the worker's file.

When acquiring photographic ID from the worker, One Call 24 will ensure that a comparison is made between the pictures within the document, and also check the date of birth to ensure it is consistent with the person who has supplied the document.

Should any concerns arise over the authenticity of a worker's Identity document, One Call 24 will look to seek advice and guidance from a number of external bodies, including (but not limited too): The Home Office, Prado and Neuen Solutions.

All documentation obtained in order to establish a worker's Identity must be original documentation, signed and dated to that effect. All documents will be retained within the agency worker's file.

OneCall24 will ensure that at all times, ID and RTW documentation is verified with the use of an ID Verification scanner. This will meet with good industry practice and the standards set by the Framework Agreement and any current (and future) legislations and regulations. Furthermore, all documentation will be saved in line with WORM principles.

8. Eligibility

Establishing that the worker has sufficient right to work will be completed as part of the registration process and prior to the deployment of the worker into the provision of the services.

One Call 24 conforms at all times to current legislation when establishing whether a worker's has the right to work in the UK, including the latest NHS Employment Check Standards (see www.nhsemployers.org/your-workforce/recruit/employment-checks/nhs-employment-check-standards/right-to-work-checks).

OneCall24 will ensure that at all times, ID and RTW documentation is verified with the use of an ID Verification scanner. This will meet with good industry practice and the standards set by the Framework Agreement and any current (and future) legislations and regulations. Furthermore, all documentation will be saved in line with WORM principles.

9. **DBS and Update Service**

One Call 24 understands the importance of a current and valid DBS when placing a worker into a clinical setting. As such, a robust process is in place which irradiates the possibility of a candidate being placed into such a setting without the necessary documentation obtained.

One Call 24 will at all times comply with the latest NHS Employment Check Standards (see www.nhsemployers.org/your-workforce/recruit/employment-checks/nhs-employment-check-standards/criminal-record-and-barring-checks) and following additional www.gov.uk/dbs-check-requests-guidance-for-employers.

At point of recruitment, a candidate will be asked as to whether they have any criminal convictions (spent/unspent in line with the rehab of offenders act). This will checked over by the recruiter upon completion. If the candidate indicates that they do indeed have convictions/cautions – a full statement will be obtained, to include such information as:

- Date of Conviction/Caution
- Name/title/code of the conviction
- Fines
- Circumstances
- Outcomes

The candidate will also be asked as to whether they hold a current Enhanced DBS. If so, the original copy will be obtained from the agency and scanned – signed and dated as original seen. All information present on the certificate will be checked to ensure it reads true and correct against other documentation supplied throughout the recruitment process, including:

- Full Names checked (including any previous, maiden and/or middle names)
- Date of Birth
- Gender
- Place of Birth
- Relevant Checks completed against the Adults/Children's Barred Lists

(Any discrepancies will be followed up with the candidate and if necessary, a new DBS applied for).

One Call 24 when then establish as to whether the DBS can be used in conjunction with a placement. In order for the DBS issued by another body to be accepted by One Call 24, the worker must have

registered with the DBS Update Service within 19 days of the DBS Certificate being issued. If the candidate has indeed signed up to the DBS Update Service, One Call 24 will obtain written consent to complete an Update Service Check. Once in receipt of this, the disclosure number will be checked on the DBS Update Service website. A copy of the search and its results will be retained in the workers file.

There are 4 different status results, and depending on this will depend on whether the DBS supplied by the candidate can be used. These are:

1. This DBS certificate did not reveal any information and remains current as no further information has been identified since its issue.
2. This DBS certificate remains current as no further information has been identified since its issue.
3. This DBS certificate is no longer current. Please apply for a new DBS check to get the most up-to-date information
4. The details entered do not match those held on our system. Please check and try again.

If result '1' is returned, the DBS can be used – evidence of DBS and Update Service Checks will be retained on file.

If result '2' is returned, One Call 24 will ensure that full details are held on file of the nature of the conviction/caution. Depending on the information obtained will affect whether the convictions get escalated to the client (see Traffic Light System). Written client authorisation will be needed based on the information detailed on the DBS Certificate before a candidate can be deployed into the provision of the services. This information will be made readily available to the auditors during any audit undertaken.

If either results '3' or '4' are returned, then the DBS supplied cannot be used as part of the recruitment/placement process.

If a valid DBS is supplied, One Call 24 will complete an Update Service check prior to the assignment start date and every 6 months thereafter.

In the case of a candidate not having a current/Valid DBS, One Call 24 will apply for a new Enhanced disclosure. The applicants are sent the necessary guidance in order to complete the application online and in order to understand what information is required by One Call 24 in order to ID verify their DBS application and complete the application process.

One Call 24 will ensure that a satisfactory returned DBS is in place prior to the assignment start date, with a new DBS applied for annually thereafter (if the worker does not sign up to the update service).

Where information is present, One Call 24 will ensure that full details are obtained from the worker and retained on file in relation to the information observed on the DBS. Based on the information supplied, One Call 24 will refer to the Traffic Light System policy and follow the necessary and correct process.

All workers who obtain a DBS via One Call 24 are encouraged to sign up to the update service. A check will be carried out by One Call 24 within the first 2 weeks of a DBS being issued in order to ascertain as to whether the worker has indeed signed up the update service or not. Prompt will be provided where necessary.

One Call 24 will ensure that <https://www.gov.uk/dbs-update-service> is followed for update and prompts for further information where necessary.

All DBS certificates are retained on a secure online system with access restricted to authorised personnel only.

All candidates will be required to provide consent for the following:

- Consent for One Call 24 to complete a DBS check
- Consent for One Call 24 to retain a copy of the DBS on file
- Consent to do DBS Update Service Checks
- Consent to share their DBS and information for recruitment and auditing purposes

DBS information is detailed on Placement Checklists issued to our clients, to include the following information:

- DBS Disclosure Number
- DBS Name of Employer
- DBS Disclosure Type
- Date DBS issued

Overseas Police Checks

Where a worker has entered the UK or become resident in the previous 6 months prior to their registration, One Call 24 will ensure that an Overseas Police Check is supplied by the worker and retained on file.

One Call 24 will obtain only original documentation relating to the worker's Overseas Police Check, signing and dating the item to that effect and retaining it in the worker's file.

Where the Overseas Police Check is not supplied within the English language, Once Call 24 will ensure the document is sufficiently translated by a professional translation company.

One Call 24 will allow candidates to submit an application, before providing them with an Overseas Police Check (where applicable). This will enable One Call 24 to begin processing the application sooner; however, no decision will be made on the worker's application until a satisfactory Overseas Police Check has been received from the worker.

One Call 24 will ensure that all Overseas Police Checks are:

- Less than 3 months old at the point of recruitment
- Verified with originator
- Obtained in conjunction with an Enhanced DBS.

Regardless of the work history presented to One Call 24, or the information supplied on the agency worker's application form, One Call 24 will ensure that an Enhanced DBS check is obtained for each worker prior to their deployment within the provision of the services.

If an unsatisfactory response is received for the Overseas Police Check, One Call 2 will refer to their 'traffic light' system to confirm whether the information supplied needs to be notified to the authority. (Please refer to traffic light system for further clarification on this).

If information is present on an Overseas Police Check, One Call 24 will ensure that the worker has correctly completed the registration form, and furthermore – supplied a full statement detailing the circumstances leading up to the information provided on the Overseas Police Check.

10. Occupational Health Process

All temporary staff that are placed into the NHS via One Call 24 will undergo a robust Occupational Health Check in order to establish whether they hold the sufficient levels of immunity for the job role they are undertaking. Checks are carried out at all times in line with latest NHS Employment Check Standards (see www.nhsemployers.org/your-workforce/recruit/employment-checks/nhs-employment-check-standards/work-health-assessments).

These checks are carried out in order to:

- Ensure that temporary workers are physically capable of doing the work proposed, taking into account any current or previous illness
- Identify anyone likely to be at excess risk of developing work-related diseases from hazardous agents present in the workplace
- Ensure, as far as possible, that the temporary worker does not represent a risk to patients and that they will be doing work that is suitable and safe for them.

Occupational Health Checks will be carried out as part of the recruitment process – with the temporary worker made fully aware that any offers of placement made are subject to a satisfactory Fitness to Work Certificate being issued by the Occupational Health provider contracted to undertake the screening of bloods and immunisation reports on behalf of One Call 24. The satisfactory Fitness to Work certificate must be received by One Call 24 prior to the deployment of the temporary worker into the provision of the services.

As part of the registration process, candidates will be required to complete an Occupational Health Questionnaire, as well as providing blood/immunisation reports to further confirm the information provided on the Occupational Health Questionnaire. Once the Occupational Health Questionnaire and blood/immunisation reports have been obtained – these will be forwarded onto the Occupational Health provider.

Where the Occupational Health provider responds with the need for further information, this will be followed up with the temporary worker in order for them to obtain the necessary information in line with the response received. This may include the need for further blood reports and proof of immunisation. Once the temporary worker has supplied the requested information – this will once again be forwarded onto the Occupational Health Provider. Temporary Fitness to Work certificates may be issued by the Occupational Health provider. Where this occurs – the expiry date will be updated onto the recruitment software to ensure that the temporary worker does not work past this date without a valid Fitness to Work Certificate in place.

Where the Occupational Health provider provide a satisfactory Fitness to Work Certificate but with recommendations/restrictions – One Call 24 will ensure that these are followed. Where necessary, the client will be notified accordingly – as the recommendations may require some adjustments be made for the job role, including (but not limited too);

- Making adjustments to premises
- Altering the temporary worker's working hours

- Allowing absences during working hours for medical treatment
- Providing special equipment or modifying existing equipment
- Providing additional supervision and/or support.

Evidence that the above process has been followed will be held within the temporary worker’s file.

Once a satisfactory Fitness to Work certificate has been received from the Occupational Health provider, the temporary worker will be made available for any vacant job roles (applicable to their grade, job title and clearance).

Fitness to Work certificates will be obtained prior to the temporary worker starting their assignment, and annually thereafter (as a maximum). Where an expiry date is evidenced within 12 month – this will be adhered to.

In order for a valid Fitness to Work certificate to be obtained – One Call 24 will need to ascertain the level of clearance required for the job role. This will be either:

- Non EPP (Non Exposure Prone Procedures)
 - Hepatitis B;
 - Measles;
 - Mumps;
 - Rubella;
 - Tuberculosis;
 - Varicella;
- EPP (Exposure Prone Procedures)
 - Hepatitis B;
 - Hepatitis C; and
 - HIV

EPP

One Call 24 understand that Exposure prone procedures are those where there is a risk that injury to the worker may result in exposure of the patient's open tissues to the blood of the worker. These procedures include those where the worker's gloved hands may be in contact with sharp instruments, needle tips or sharp tissues (spicules of bone or teeth) inside a patient's open body cavity, wound or confined anatomical space where the hands or fingertips may not be completely visible at all times.

The below list is followed by One Call 24 when applying for an EPP Fitness to Work certificate for a temporary worker:

<ul style="list-style-type: none"> • Accident & Emergency

<ul style="list-style-type: none"> • Minor Surgery
<ul style="list-style-type: none"> • Radiologists

Where the job title/job role does not provide suitable transparency on what clearance is required, One Call 24 will make further enquires with the Trust in question. Evidence of the necessary clearance will be held within the temporary worker's file.

No temporary worker will be placed or work in assignment without a valid Fitness to Work Certificate on file.

Temporary Certificates

In some instances, the Occupational Health Provider may issue a temporary certificate of clearance. This will detail an expiry which can range between 3-6 months. OneCall24 will ensure at all times that the recruiter system is updated accordingly with the expiry date and that a new Occupational Health Certificate is obtained should a candidate work past the expiry date listed on the temporary certificate.

Occupational Health provider

One Call 24 use the service of Healthier Business as their Occupational Health provider - who is SEQOHS accredited. Training will be provided by the Occupational Provider to One Call 24 staff, so that the correct procedure can be followed throughout the business. If there are any concerns raised when going through the Occupational Health process, One Call 24 will liaise with the Occupational Health provider swiftly in order to rectify these issues promptly.

Evidence of the contract signed and held with the Occupational Health provider will be made readily available for any external audit in line with the requirements stipulated within a supplier contract.

Infection Prevention

Infection Control, including MRSA, C dif, Ebola are both hospital acquired infections. Agency Workers are made aware of their obligations when it comes to Infection Prevention, with full information detailed within the Agency Worker Handbook. This includes:

- Wash hands before and after patient contact
- Wear gloves, aprons and masks
- Uniforms should be short sleeved so nothing below the elbow except for a plain wedding band is allowed
- Dispose of items in the correct coloured bins
- Cover up any cuts or breaks in the skin

HIV/Aids The HSC1998/226 "Guidance on the Management of HIV infected health care workers and Patient Notification" must be adhered to.

If the Agency Worker thinks that they have been exposed to HIV in any way they must go straight to A & E or their nearest sexual health clinic.

OneCall24 must be informed immediately. All agency workers will be treated with respect, confidentiality and support.

11. Agency worker Training Programme:

One Call 24's aim is to ensure that all temporary staff placed by them are sufficiently experienced, skilled and trained. In order to do this, proof of mandatory training is asked for and obtained as part of the initial recruitment process.

Evidence of training completed by the candidate is asked for within the Application Form and also required to be supplied as part of the Employment History/CV – full detailing what training has been completed and when.

Candidates will be asked to supply all original certificates of training completed in line with the job role and the job role they are applying for. At all times, One Call 24 comply with latest Skills for Health UK Core Skills Training Framework (see www.skillsforhealth.org.uk/services/item/146-core-skills-training-framework). Certificates will be checked against the information supplied within the CV and Application Form.

Only original certificates will be accepted. These will be scanned onto the system, signed and dated as original seen by One Call 24. One Call 24 will then proceed to contact the issuing bodies in order to establish:

- Course content
- Module levels completed
- Online or practical training
- Confirmation of issue/expiry dates
- Authenticity of the training certificates
- Alignment to the Skills for Health Framework

All verification received from a training provider in writing will be retained within the agency worker's personnel file. This information will be made readily available to auditors during the audit process.

Where any discrepancies arise, these will be escalated to the relevant bodies and may delay or stop the recruitment process. This includes:

- Framework
- Authority
- Participating Authority
- NHS Protect

Should there be any gaps identified within the candidate’s training, skills and/or expertise, One Call 24 will look to offer and provide the necessary assistance to ensure that the candidate is fully compliant to a standard that meets the customer’s requirements. This can include: setting up additional mandatory training for the candidate or refresher training depending on the need.

16. Compliance Team

The compliance team will then take a copy of all original documentation, and retain this on file in a way which cannot be altered. Items such as: Qualifications, Training and Professional Registration will be further verified with the relevant body to ensure that the information supplied is correct – and again, confirmation retained on file.

Identity and eligibility documents will be verified to a) ensure their authenticity and b) ensure that they provide a statutory defence. Should any concerns arise at this stage; the

Agency will seek external assistance – with further checks completed in line with the Home Office Guidance to confirm the information presented is sufficient.

References will be requested, with 2 satisfactory and sufficiently verified references required before a candidate can be considered or placed into a job role. References will be cross referenced against the employment history/CV supplied to ensure that once again, the information is correct. Any inconsistencies, unsatisfactory responses or incomplete responses will be followed up and rectified before a candidate can be considered or placed into a job role.

Should there be any gaps identified within the candidate's training, skills and/or expertise, OneCall24 will look to offer and provide the necessary assistance to ensure that the candidate is fully compliant to a standard that meets the customer's requirements. This can include: setting up additional mandatory training for the candidate or refresher training depending on the need. The compliance team will then ensure that all of the customer's requirements have been fulfilled. This is done by working off of a *customer requirement checklist* and also against the position available for the candidate. Once the candidate has met all of the requirements required, the file is reviewed with a first and second stage sign-off. At this stage, the candidate can be considered for job roles and will be put forward for relevant job roles. To further reassure that the candidate meets the necessary standards set by the customer, including expertise, skills and training – OneCall24 will forward onto the customer a *Placement Checklist*, which will detail the various compliance criteria that had been met. Files will then be available upon request.

Once the Temporary Worker is placed, OneCall24 ensures that an ongoing maintenance compliance process is in place – which will identify any areas within the temporary worker's file which may be nearing the end of its validity. By implementing a process in which criteria is flagged as no longer meeting the standard, or approaching that stage, OneCall24 can reduce the risk of a temporary worker being placed without the sufficient training and expertise in place.

17. AWR

Workers will also be provided with information concerning the Working Time Regulations, AWR and Pension Auto Enrolment. All information is available within the Agency Worker Handbook, which the agency worker must read – signing the declaration to confirm the information has been 'read, received and understood'.

a) Appraisals

Within 6 months of starting work with the agency, all workers must be given a full appraisal with a qualified nurse/midwife. It is made of two parts — the self-appraisal and the face to face interview once the first appraisal has taken place, a further appraisal must take place every 12 months thereafter.

- b) All the documents below need to be updated annually:
- OneCall24 ID Badge
 - Training Certificates (where relevant)
 - Skills and Drills (for Midwives)
 - Control and Restraint Training (For anyone working within mental health)
 - Professional Membership Annual Retention
 - Fitness to work / Immunisation history report
 - DBS / Update Service Checks
 - Professional References
 - Employment History
 - Intention to Practice (for Midwives)

19. Revalidation

One Call 24 supports the Revalidation process that went live in October 2015 and will provide a range of assistance to agency nurses to help them fulfil their obligations.

Information and updates regarding the Revalidation process will be posted on One Call 24's website in order to sufficiently notify their temporary workers with current and any updated legislation changes. This will enable temporary staff to access material at any time that suits them. The One Call 24 website will also be used to signpost staff to additional resources provided by the NMC and other approved bodies.

Performance review data, formally gathered as a part of the standard appraisal and review process, will be made available to support individual nurses' portfolios. This will include:

- Standards of practise
- Comprehensive revalidation checklist to assist the worker throughout the process
- Lessons learned and any issues arising
- Review of feedback from the temporary worker's placement supervisor
- CPD undertaken and planned
- Training and development needs
- Review of objectives from the previous appraisal
- Objective setting for the forthcoming period
- Bulletin of infection control, virus outbreak, or other local matters
- legislation and Framework update – circulation of information as required by participating authorities, and any relevant legislative changes

One Call 24 will be able to provide its nursing staff with a large proportion of the information required for revalidation from within recruitment software. The system can export the following data to support revalidation:

- Practise hours undertaken whilst working for One Call 24 that contribute to the 450 hours minimum.
- Portfolio records, including dates of practice, hours, details of the organisation and timesheet evidence.
- CPD and training provided by One Call 24
- Feedback received centrally via One Call 24's feedback system

One Call 24 will also help nurses achieve the required 40 hours of CPD by actively providing CPD approved learning and development opportunities. Guidance and support will also be provided to ensure that staff has the required levels of professional indemnity insurance cover.

One Call 24 will assist eligible workers with financial contributions made towards their CPD elements of their revalidation. Information on eligibility for financial contributions can be found in the OC24 Agency Worker Handbook, found on our website.

OneCall24's Clinical Nurse Manager will assist you throughout the process, review all of your submissions and sign off on the registrant's portfolio.

OneCall24 at all times, follow the guidance supplied by the NMC, RCN and NHS.

20. Continuous Improvement Programme

OneCall24 ensures to continuously improve on current policies and procedures, therefore staying ahead of the competition and ensuring to be up to date with all current requirements and legislation. One Call 24 understands that Continuous Improvement is the on-going effort to improve products, services and processes by making small, incremental improvements within a business. The belief is that any incremental changes will add up to major improvements over time.

OneCall24 ensures that a good quality assurance programme is in place all the time. It has set out a programme which will allow this. This entails:

- Once Policies and procedures are created and improved they are kept in staff training manual and handbook and all members of staff are notified via email and in person.
- Appropriate induction and training is given to all new members of staff until they are comfortable and confident
- Regular internal and external audits are conducted to ensure that improved and amended policies are implemented accordingly.
- Feedback (clients/staff/temporary workers/patients/other)

One Call 24 realise that the following are the minimum elements of a sound improvement plan:

- Assessment of Current Situation: Findings, root causes and remedies
- Rationale: Why will you implement the improvement?
- Objective: What will success look like for OneCall24 and the client?
- Timeframes for Improvement Initiatives: When will the improvement take place? Will the improvement be rapid or long term?
- Responsible Group: Who will be accountable for implementing the improvement?
- Activities/Task that will be engaged in to Support the Improvement: Who will do what by when?
- Communicating the Improvement Effort: What will you say and to whom?
- Monitoring Plan Progress: How will you chart your progress? What methods/tools will you use?
- Sustaining the Improvement Effort: How will you ensure the improvement effort continues to be implemented? What methods/tools will you use for accountability?
- Budget and Resource Implications

The above structure is followed by OneCall24 to ensure that a robust & Improvement Programme is implemented correctly throughout the business, and followed with a high level of understanding.

OneCall24 fully understands that company's success entirely depends on excellent client satisfaction and thus getting client feedback is of great importance to improve performance. OneCall24 strives hard to provide excellent service to ALL clients. To this effect it conducts regular client surveys wherein feedback/Survey forms are sent over to ALL clients every 12 months via emails to seek information on areas of improvement and areas of success.

This valuable feedback is then reviewed by management/Director thoroughly to identify areas of improvement. Necessary steps will then be taken to improve on those areas and communicated to staff via email and in person, therefore improving overall performance and customer service. All the feedback received from clients will be logged in client feedback folder and stored securely in company IT system.

OneCall24 realises that feedback on workers performance at end of every placement is an important tool to find out how worker's did and what areas they can improve on to do better where necessary. To this effect OneCall24 introduced End of placement assessment form to be supplied to workers to get filled by clients after every placement (of >2 days). OneCall24 aims to get feedback on worker's

performance in every possible way and to ensure that it has also introduced feedback section on time sheet where in feedback is provided at the end of placement when time sheet is filled/signed. Any feedback identified in this way is communicated and discussed with worker during appraisal meeting by authorised appraiser to help them improve their performance. Workers are actively encouraged to participate in appraisal processes regularly (at least 1 per year).

All candidate feedback reports/feedbacks are stored in respective candidate folder securely in company IT system. All available feedback reports (both positive and negative) are collated to analyse and identify the trend and additional training provided where necessary, which are identified through appraisal process.

By having this in place OneCall24 ensures that it:

- Improves the quality of service delivered to clients &
- Increases patient safety.

If any feedback regarding safeguarding, malpractice etc is received at any time then appropriate disciplinary proceedings will be undertaken as soon as possible to ensure Patient safety. During this process all involved parties are kept up-to-date of the progress.

OneCall24 ensures that ALL Company Policies and processes are thoroughly reviewed by management or director regularly and amended or updated accordingly where necessary and communicated promptly to internal/external staff via email and in person

As per the above, feedback from clients is critical, with the below template used in order to obtain necessary opinions on workers placed by OneCall24.

22. Booking Process

One Call 24 currently uses robust recruitment software that gives them all-in-one system for managing the entire of their recruitment process. Among other things, this allows One Call 24 to maintain a robust booking process, ensuring total compliance at all times.

Initially, when a trust (authority) is set up on the system, One Call 24 will obtain email confirmation from said Trust (ideally the Procurement team), with the names of the authorised officers who are able to place bookings on behalf of the trust (authority). This information will be inputted into the

recruitment system, for that specific trust. This will then restrict who can place bookings from that trust for temporary workers. Any bookings or amendments will then have to be from one of the authorised personnel detailed against that trust, with sufficient verification sought in the form of a business email address or password (if via phone) from the authorised Officer.

All communication will be uploaded to the recruitment system in order to keep a fully recorded audit trail relating to each booking/booking request.

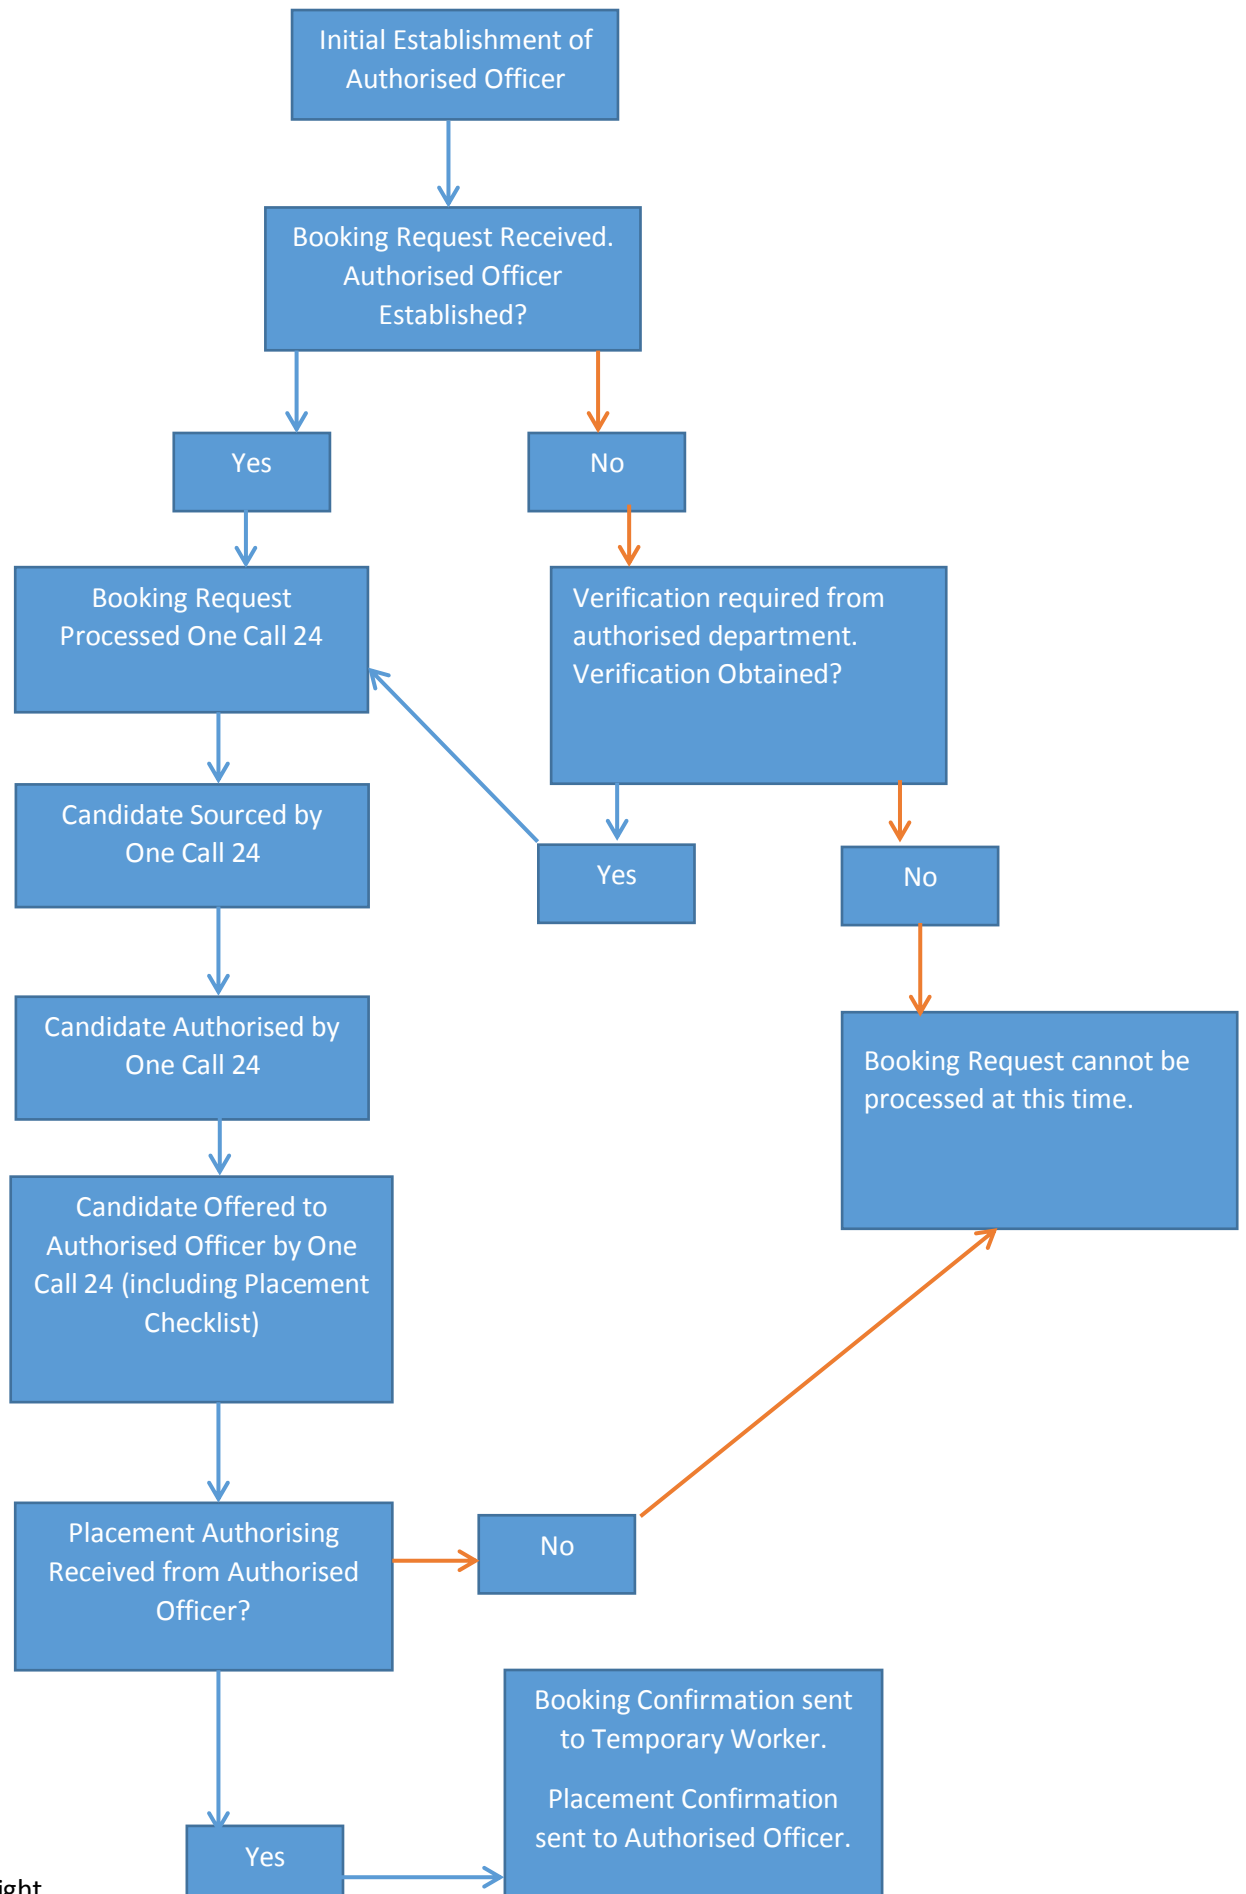

Where an authorised officer is changed or added to the list of authorised officers, One Call 24 will ensure confirmation is sought once again, from the Procurement Team (or authorised department).

If the booking request cannot be sufficiently verified by the person making the booking, One Call 24 will not be able to process said booking until sufficient verification is received and/or the trusts Procurement Team (or specified department) make that request in writing.

The first process charts details the following:

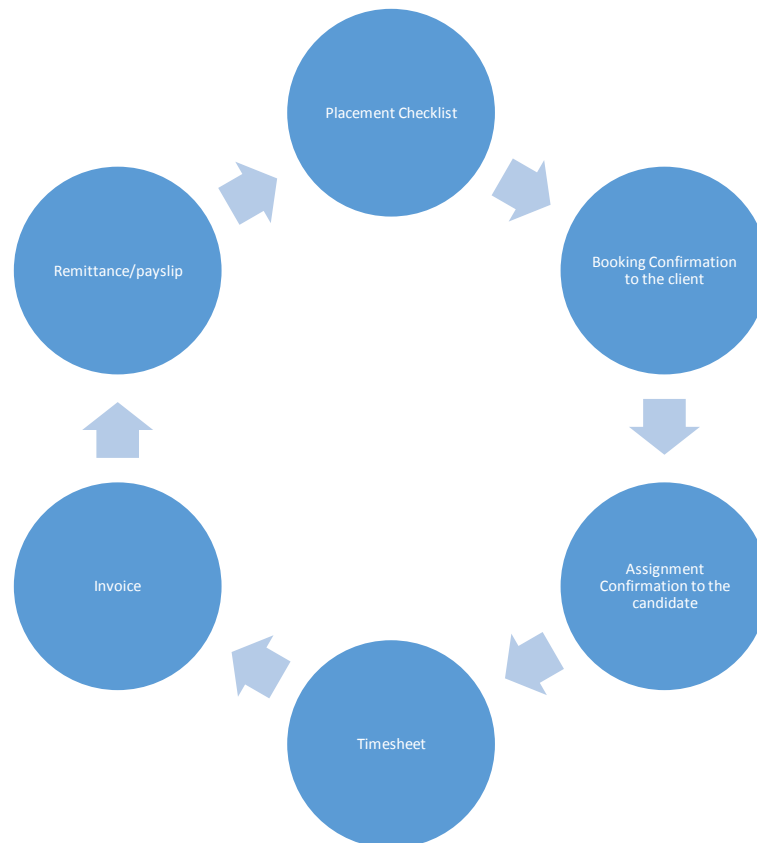

- Establishing the authorised officer(s) for that trust (authority)
- Receiving a booking
- Verifying and confirming the identity of the authorised officer
- Identifying and submitting a candidate to the position
- Confirming the placement with the authorised officer
- Confirming the booking with the candidate.

Audit

As part of the framework audits for which we undertake, OneCall24 will ensure that the following information is made available to auditors to further verify that the booking process in place is compliant.

The above items will allow both OneCall24 and any auditor to further verify that any bookings process has remained compliant throughout. For example, an auditor will be able to confirm that a rate agreed when a job role has been offered remains the same when invoicing the client and subsequently, when paying our candidates.

In instances where the candidates services are utilised via Direct Engagement or where a platform is utilised for a booking (i.e. NHSP, Stafflow etc), OneCall24 will provide screenshots of the portal systems utilised for said booking. This will enable an auditor to verify the booking process followed without signing manual timesheets/payslips etc.
